Red Devil grid squad has experience, depth

(Continued from page 6)
played at both defensive end and defensive tackle during the 1983 season.

Pat Mullen, Mike Anderson and Will Ballaugh will all see action at defensive tackle, along with starteer Eric Jackson.

Two sophomores will pull duty at the defensive halfback positions this season, according to Wade. Steve Ferrell (5-7, 134 pounds), and Ricky Carroll (5-10, 155 pounds) are both up this season from last year's Red Devil varsity squad.

At safety, Wade plans to use Craig Roberts and Eric Elliott, both of whom will also be playing offense for Rustburg.

Offensively, look for the Red Devils to run out of a wishbone backfield formation this season.

Wade notes that, while the team will run a mixture of passing and ground plays, "we'll probably spend more time on the ground than passing. The wishbone formation lends itself more to a running game."

Essential in the success of that running attack will be quarterback Eric Elliott. The experience he compiled as last year's leading rusher should serve him well as the key man in the quarterback option, a play tailor-made for the wishbone formation.

Defensively, the Red Devils will be running a 4-4 most of the time, with four

have very good stamina. They're scrappy."

That, in a nutshell, is the essence of this year's Raiderette squad.

"Our team's greatest asset is that they won't give up. They work hard, and they have a very good attitude toward the game," Tolley notes.

The Raiderettes also have an advantage in the shooting ability of Bev Bennett and Janice Foster. "They're both good outside shooters," according to Tolley. "If we can develop an inside game, take advantage of our height, we should improve steadily as the season goes on," the coach adds.

Concerning the Seminole District competition this season, Tolley concurs with other coaches in the area in her belief that Altivista and Buckingham will be the teams to beat in 1984.

As for the Raiderettes, coach Tolley is satisfied that her girls are working hard, and she is impressed with their determination and refusal to give up.

"If we can take advantage of our height, and overcome our lack of experience as the season progresses, then we should have a very competitive team," the coach concludes.
